

MATV / CATV

- Distribution amplifiers are universal application
- Adjustment of gain - 20dB
- Stabilized power supply unit incorporated
- Spare power for remote supply to pre-amplifiers
- High interference suppression against spurious signals
- Radiated interference proof
- Connection Sockets, Standard : F TYPE
- Weight : 2.3 Kg
- Dimensions : 270 x 135 x 62 (mm)

Type No.	BD117D		BD117W			BL117D			
Input	2		3			1			
Frequency Range	MHz	47 - 230	470 - 862	47 - 92	167 - 230	470 - 862	47 - 230	470 - 862	
Gain	38 dB ↗								
Max. Output Level	- 60dBCMR	117dBμV							
Noise Figure	4 dB								
Screening Figure	> 70 dB					> 75 dB			
Input / Output Impedance	75 Ω								
Power Consumption	AC 220V / 10W					AC 220 V / 15W			
Current Reserve For Remote	220mA / DC 15V
