

Detector Mounting Bracket

MB-95/98/99

■ MB-95

MB-95 is a round base mounting bracket for ceiling mount application of 150, 250, 520, 530 & 830 series motion detectors. This bracket provides 360° pan and 45° tilt adjustment. It is also available for OEM production.

■ MB-98

MB-98 is a ceiling/wall mounting bracket specially designed for AC-250 series SensCAM motion activated cameras. This device provides space for the integration of wireless video transmission module or cable concealment.

■ MB-99

MB-99 is a miniature mounting bracket designed for ceiling/wall mount installation with 150, 250, 530 and 550 types of detectors. This bracket provides cable concealment via a unique tunnel without sacrificing necessary multi-angle adjustment.
